

Instructions for making a Wizard's Wand or Staff

All wands are made the same way but have more Runes on them as you progress. The same procedure is used for making a Wizard's Staff.

A Wizard's wand is plain, decorated /empowered only with Runes or Ogham Script .

No longer than from tip of big finger to elbow, it can be shorter.

If you do not have a wand, here are the instructions to make one.

First find a tree that is willing to share its strength and knowledge with you. Ask it for a Wand/or Staff.

There maybe a suitable length one in the immediate area of the tree that has already dropped for you, if not cut the desired wand, and give the tree healing immediately after cutting and give thanks.

Take it home and strip any twigs of it and the bark. Give it a gentle but firm scrubbing with a VERY fine sandpaper, light incense whichever your intuition tells you, Bathe the wand in smoke (incense) while asking God/Goddess the ONEs blessing and protection for he wand and yourself.

Place the wand in an energised area, next to crystals works best and leave for about two weeks then apply your first rune/ogham.

Follow your intuition , for placement . You can burn them on , scrape them on or paint them on, if painting , I recommend Silver Airfix paint to work best.

Place next to crystals for about 4hours then apply your first beeswax coating while calling on the Earth Dragon to bless and link with the wand, when wax coat is finished.

Bathe it again in the incense smoke whilst calling on the one to ensure only the ones energy can use the the wand. Place to dry next to crystals.

Continue this process for all Dragons, Earth, Air, Water, Fire, Spirit and Destiny (the Dragon of the Wyrd/Way) .

When that is done, place the Rune/Ogham for all runs defence heart the handle of the wand and seal the wand with the seal of the ONE.

The ONE's seal is a circle cross which you place at the very top of the Wand/Staff. Apply a last coat of wax the same way as the others. When it is dry your wand is ready for use.

A Staff will naturally have more Runes/Oghams on it.

The Wizard's wand is used almost exclusively for balancing and energising YOU, Not others, nor for outer manifestos. It is for inner work. The staff is for outer working and balancing energising others.
